## DANIELSON AND PUTNAM NEWS

#### DANIELSON

The Improvement of Mrs. Charles Ray, Brooklyn, who have been a patient at the Day Kimball hospital for the past three weeks, is slow, but her recovery is anticipated by her relatives and friends.

Interviews with many taxpayers, whose assessments have been increased, indicate that they will not greatly regret the advances made by the assessors if a lower tax rate is to be expected, and this now seems likely. It is probable that the improvement of the state highfay links between Hampton and Brooklyn and between Danielson and Little Rest will proceed at the same time during the coming spring and summer, but months will be required to do the work that has been planned.

Ice-covered streets, deep with ruts, gave the automobilists a hard time of it managing their cars in Danielson on Wednesday. Especially along streets through which the trolley line runs did the drivers of the motor vehicles have their troubles when cars came along until, after long effort, they managed to crawl out and let the car pass. Drivers describe the condition of the streets due to the loe, as the worst they have known, and the condition exist all through this section. There is not much that can be done to relieve the condition, either, until the wenther becomes milder and a thaw of several days duration sets in.

Potatoes had jumped to 90 cents a peck, or at the rate of \$3.60 a lwashel in Danielson, Many cars that have been handled in this city are now owned, of his proposed and in the cart has been will not pariety to have been owned, in heart of the rare are, The investigations and so the second the past have been done to relieve the condition, either, until the weather becomes milder and a thaw of several days duration sets in.

Potatoes had jumped to 90 cents a pecking people who were in the market of the formachines.

Each day's investigation by the officers has led to the discovery of much interesting information pertainted that the improvement into this teritory and sold to the discovery of much interesting information pertainted tha

comes milder and a thaw of several days duration sets in.

Potatices had jumped to 50 cents a peck, or at the rate of \$3.60 a bushed in Danielson. Wednesday, and there is no guarantee that, is the top price householders will have to pay before the new potatoes begin to come in. Considering the shortage in all kinds of staple foodstuffs not only in the United States, but through the world, a campaign to go back to "war" zardening may be conducted in Killingly this spring and summer. Greater production, it is claimed, is the only possible rallef from high prices. Farmers cannot be expected to work for a return of \$20 a week net, or even less, while many tradeamen are earning from \$40 to \$30 a week, and they're not going to any more they say. They cannot compete for help against the factories and the trades and cannot by themselves produce enough otherwise to make lower prices possible.

So many have been in this vicin.

The course of the work the officials have seized cars from local men, each of whom had no suspicion that his car at gometime had been stolen. One of these cars, a Cadillac, in content to the sale of which Arthur Tepting, automobile dealer, was arrested here, has been traced as having been solen in New York city from a Packard Automobile Exchange. Inc., on March 13, last, it came into this city from Massachusetts and the officers would like to interview the man who brought it here. This car has been in the possession of Leo Delisle, who bought and paid for it in an entirely regular way.

Another of the cars, a Buick roadstant of the city's most renutable busi-

Records here show that there have been more real estate transactions in Killingity, and particularly Danielson, during the past twelve months than in any similar period for a number of years. The chief selling has been of dwellings, many of which have changed hands. A recent sale reported is that of a cottage dwelling on Academy street by Mrs. Eno Roberts to A. Weisberg, who, with his family, has for years occupied the home in must.

In out stolen cars has made about every man who purchased a used car within the past year necessary united to the past year necessary to be come in the investigation now going on.

## Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up Great Strength, Energy and Endurance.

Lee & Osgood, and all good druggists soid in this city by Chas, Osgood Co.,

Commenting on the nase of Nuxated Iron as a tenic, strength and blood builder by over three million people annually. Dr. James Francis Sullivan, formerly physician of Believue Hospital (Outdoor Dept.), New York, and The Westchester County Hospital, said, "Lack of iron in the blood not only makes a man a physicial and mental weskling, nervous, irritable, easily fatigued, but it utterly robs him of that wirile force, that stamfan and strength of will which are so necessary to success and power in every walk of life. It may also transform a hean tiful, sweet-tempered woman into one who is cross, thereous and irritable. It have strongly emphasized the great necessity of physicians making blood examinations of their weak, anaemie, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient from in their red blood corpuscles without ever realizing the real and true cause of their trouble. Without iron in your blood your food merely passes through the body something like come through an old mill with rollers so wide apart that the mill can't grind.

For want of iron you may be an old man at thirty, drill of intellect, noor in memery nervous, irritable and all "run down," while

gubiect by well-knows physicians, theurands of people still innet conditions themselves with metallic from simply. I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic from Nuxated Iron—or if you don't want to get to this trouble then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparation's sich as Nux and Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

Mantacrutas form Nuxated Iron.
